

DE 4002

Universal steam cleaner for commercial application. 2-tank system (permits the boiler to be filled during operation), VAPOHydro, accessories compartment and an ergonomically designed carrying handle are only some of various equipment features of the DE 4002.

1 2-tank system

- Very short heating periods, as only a fraction of the total tank volume is heated at any one time.
- No work interruptions and no waiting times, since refilling is possible at any time.

2 VapoHydro

- Infinitely variable control of moisture content from steam to hot water jet directly on the machine.
- With the hot water jet, dried dirt, for example, can be optimally dissolved.

DE 4002

- 2-tank system
- Short heat-up time
- Pump for hot boiler filling

Technical data

Order no.	1.092-103.0	
EAN code	4039784720022	
Voltage	V	220-240
Heating output	W	2300
Tank capacity	l	2.4 / 2.2
Cable length	m	7.5
Steam pressure	bar	3.2
Weight without accessories	kg	8
Dimensions (L × W × H)	mm	480 × 305 × 265
Frequency	Hz	50-60
Boiler temperature	°C	145
