

OMEGA® COMMERCIAL PANEL GAUGES TYPE P

PGP Series

- ✓ Durable and Accurate Design
- ✓ U-Clamp Mount
- ✓ 2½" Dials
- ✓ For Use in a Wide Variety of Applications

OMEGA® panel gauges use a U-clamp mounting system. The attractive black-painted, steel-case gauges are designed for use on instrument panels, air conditioning equipment, air and gas dryers, machine tools, air compressors, pressure test stands, and a wide variety of other panel gauge applications. The panel gauges use the unique OMEGA® spring-suspended movement. The entire movement is suspended between 2 springs, with the Bourdon tube above and the link below. Wearing parts have been reduced to a minimum.

Movement parts are ultrasonically cleaned and lubricated with silicone oil to ensure long cycle life. The OMEGA® spring-suspended movement is resistant to shock, pulsation, and vibration, thus contributing to longer gauge life.

OMEGA® panel gauges, with U-clamp mounting system, are durable and feature long-term life and stability. The attractive black steel-case gauges are designed for use in numerous panel gauge applications.
