

WD 6 P Premium

KÄRCHER

The high-end WD 6 P Premium multi-purpose vacuum cleaner impresses with its ultra-high suction power, with a power consumption of only 1,300 watts. The vacuum cleaner is equipped with the innovative filter removal technology and also with the flat pleated filter contained in a removable box in the device head. By folding out this box, the filter can be removed in seconds without any contact with dirt. Dry and wet dirt can be vacuumed without the need for filter replacement. Thanks to integrated filter cleaning, the dirty filter can be efficiently cleaned by pushing the filter cleaning button, so that suction power is quickly restored. The power outlet with automatic on/off switch allows you to work with connected power tools. Dirt resulting from planing, sawing or grinding work is vacuumed directly. Suction power can be adapted to requirements, both for standard vacuuming operations and for use with power tools. Other highlights: 30-litre stainless steel container, newly developed accessories for the best cleaning results, removable handle with electrostatic protection, drain screw for large water volumes, parking position and much more.
